FORMAL COMMENDATION.

CAPTAIN-LIEUTENANT (Military Constructions) **MR FERNANDO JOSE CAPELETTO NETO.**

At the moment in which captain-lieutenant *Mr Fernando Jose Capeletto Neto* (Military Constructions) does come back indeed to the Naval Force, it is paramount to acknowledge and to highlight the assignments performed by him alongside the *Innovation, Technology and Science Ministry* wherein he performed indeed professional counselling and advisory activities alongside the *Vulnerable Assets General Coordinating Department* which is institutionally linked to the *Cooperation and International Affairs Department*.

From October 2019 on, I **did** hold indeed the privilege of counting with captain-lieutenant *Mr Capeletto* in the *Nuclear Control, Follow-up and Implementation Thematic Areas Department* wherein he properly showcased to be a highly trustworthy professional agent alongside many other positive features on the professional and personal levels. He duly exercised and fulfilled difficult tasks with proper diligence, dedication, pro-activeness, esprit de corps and commitment. His performance disclosed and exemplified indeed technical skills subsumed onto a military persona fully invested onto any given task.

Since he has an outstanding professional CV, he was prolific indeed in variously efficient, outcomes-laden and comprehensive ways in which he performed the inherent professional duties pertaining to the *Vulnerable Assets General Coordinating Department/Cooperation and International Affairs Department*. He was very resourceful indeed and he **did** not shrink from any responsibilities at all when complying with his professional attributes in rendering advising and counselling services alongside the *Vulnerable Assets General Coordinating Department*. It is very important, then, to emphasize that his dedication overstepped indeed all ascribed duties.

He duly coordinated and arranged the *Brazilian Nuclear Supplier Group's* technical specialized activities which ultimately aim to discuss the *Nuclear Suppliers Group's* control lists modifications and technical proposals. He was professionally active as well in handling legal procurement procedures which are closely linked to vulnerable assets control; dual-use procurement processes as well as directly rendering service provisions in the nuclear arena. He

duly supported as well – through his professional activities alongside the *Vulnerable Assets General Coordinating Department* – the *Brazilian Navy* strategic nuclear projects pertaining to the procurement and acquisition of vulnerable assets deemed crucial to keep afloat the technological developments continuity in that important department.

In the international arena, he performed his duties in a brilliant way, duly engendering subsidies and rendering technical service provisions to the *Foreign Affairs Ministry* on issues pertaining to international cooperation treaties.

If it were not for the short time in which he rendered professional services at the *Vulnerable Assets General Coordinating Department* (including the coronavirus-occasioned internationally widespread public healthcare emergency state), I **do** firmly assert that his achievements would be broader than that.

I **do** further corroborate indeed that a few more features pertain to captain-lieutenant *Mr Capeletto*: he is deemed as an assiduous, punctual, organized, methodical, dynamic, demanding, smart, intelligent and responsible public servant. Such virtues **did** contribute indeed to the way in which his professional duties were duly rendered in an impeccable way at the *Vulnerable Assets General Coordinating Department*.

When I **did** bid him farewell, I **did** congratulate him indeed for always treading the commitment and responsibility pathway and I **do** heartily thank him for the unbound and constant collaboration which was duly rendered. I **do** wish him successful outcomes in this new life stage as well as on subsequent events in his life concerning good health, prosperity and achievements alongside his respectable family.

Brasilia on August 19th/2020.
